SUMMARY

Software engineer with a B.S. and M.S. in Computer Science (AI concentration) and hands-on experience shipping web and mobile products to production. Founded and lead engineering at Sozo Tech Enterprise, where I built The Sozo CRM (Next.js, TypeScript, PostgreSQL) and AnglerIQ, an AI-powered mobile app (React Native, computer vision), while managing a team of 3 developers.

EXPERIENCE

Founder & Lead Software Engineer — Sozo Tech Enterprise

Jan 2025 – Present

- Founded an investor-backed software company; lead product, architecture, and engineering across web and mobile.
- Shipped The Sozo CRM (thesozocrm.com) from concept to production with Next.js, TypeScript, and PostgreSQL.
- Building AnglerIQ, an AI-powered fish finder mobile app, with React Native and computer vision.
- Manage a team of 3 developers — roadmap, sprint planning, code review, and releases.

Head of Technology — Elevate Solar

Jan 2024 – Dec 2024

- Owned technology for a solar energy company while completing my B.S. in Computer Science.
- Designed, built, and launched the company website (elevate-solar.com) to support sales and lead generation.
- Built an internal facial recognition application using computer vision.
- Managed the company's software tooling and infrastructure.
